cherry@wlan-172-20-127-3 ~ % aws ec2 describe-instances --filters "Name=type,Values=t2.micro"

An error occurred (AuthFailure) when calling the DescribeInstances operation: AWS was not able to validate the provided access credentials
cherry@wlan-172-20-127-3 ~ % aws ec2 describe-instances --filters "Name=instance-type,Values=t2.micro"

```

I have tried all the possible ways to do the commands run them in my terminal, but all it doing is blocking them. But I'll try to do it in different method or find a solution for that and submit again.

Thanks and Regards
Sai Charan Pasupuleti
